Tip the pieces out then try to complete the cube. This puzzle will have you pulling your hair out, usually the last pieces just don't make up the perfect cube you need!

①

Aim: Remove both steel rings from the two posts.

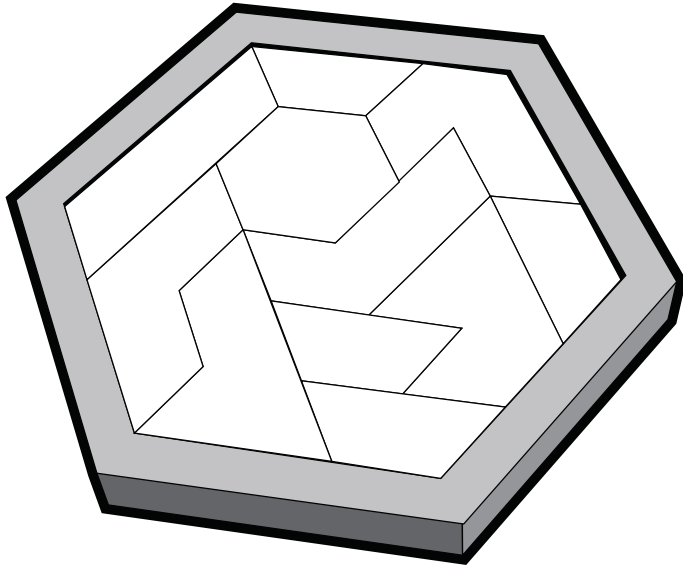

If you need help here is how one ring is released – you do the other! An added challenge is doing the puzzle in reverse so the puzzle is exactly as it was when you started.

②

Aim: Fit all eleven pieces back in to the hexagonal frame.

This puzzle is made harder if some of the pieces are turned over and thoroughly mixed up before you start.
